- Madagascar

SPECIALIZATIONS

## WATER WELL DRILLING

APC is acclaimed for its water well drilling services throughout India. The company owns 25 water well drill rigs with a capacity to bore 500meters deploying compressor of 1500 cfm/400 psi. Chiefly utilized for water well drilling, our rig fleet allows customization based on client requirements.

Tractor drilling rig mounted with Top Drive all Hydraulically Operated Drilling Rig extracting main power from Tractor Engine, is capable of drilling using DTH method to Depth of 250 Mtrs. Mainly designed for Madagascar terrain.APC is now all set to extend its services in Africa and other countries worldwide. Going ahead our crew is well supported through experience and expertise.

## REVERSE CIRCULATION DRILLING

APC owns 4 reverse circulation exploratory rigs and this facilitates drilling up-to 200m. Compressors of 1200 cfm/320 psi and 1300 cfm/350 psi are used for the process. Reverse Circulation Drilling is typically done to explore and collect samples of minerals and ores for its gratifying speed, cost effectiveness, and efficiency irrespective of ground formations. APC has completed 206581 meters of drilling in RC.

## DIAMOND CORE DRILLING

Diamond core drilling is used to collect core samples and to determine mine reserves, we offer a range of drill options based on customer requirements. APC owns 39 numbers of Hydrostatic Diamond Core drilling rigs which are employed to drill depths of 600meters, 1000meters, and 1200 meters and 1750 meters. We are currently operating 33 rigs in India and 6 rigs in Madagascar.

Today, we stand extending our heartfelt thanks to all our revered clientele on accomplishing 493209 meters HQ/NQ/BQ size holes in Iron ore, Manganese, Coal, Limestone, Lignite and Quartz.

## SONIC DRILLING

APC Drilling is the only company in India holding fast method Sonic Drilling Rig, the world's most advanced technique. Sonic drilling is preferred in investigating heavy metals organic and other types of contamination. This can drill out core through landfill debris also.

## CHROMITE & GOLD MINING

APC is holding 592 Sq.km of Chromite and Gold permits in Madagascar. We are about to explore the concessions in order to prove the Reserves. We have well qualified exploration team with international standards.

## EXPERIENCE AND ACHIVEMENTS

APC's achievement and accolades stand testimony to our world class drilling services and solutions. We weigh to be the forerunner in adopting technologies and delivering customer centric solutions. APC is the only company in India possessing 4 Reverse circulatory exploration rigs.

APC Drilling company was initially engaged in water well drilling works and gradually stepped into exploratory drilling services in 2008, Our achievements since then is tremendous fulfilling meters of drilling in the categories listed herein

RC DRILLING

206581m

493209m

## MINING CONSULTANCY

Prospecting the underground resources make nations to grow more importantly the base metals reserves go in the nation building movement; play a vital role in the progress of economy.

APC Drilling today is synonymous with one stop shop for mining solutions. We offer the following related services with diligence.

GEOLOGICAL & STRUCTURAL MAPPING  
GEOPHYSICAL SURVEYS

DRILLING, LOGGING & SAMPLING

RESOURCE MODELING & MINE PLANNING

BENCH SCALE & PILOT PLANT STUDIES

DUE DILIGENCE STUDIES

PRE-FEASIBILITY & FEASIBILITY STUDIES

ENVIRONMENTAL IMPACT & ASSESSMENT

## CORPORATE SOCIAL RESPONSIBILITY

APC's corporate social responsibility has developed because of increase in personal liability. In 21st century our company have to show that their main concern is not only profit making but to give in return to society and in sense they are obliged to work towards the betterment of society and environment.

Our Focus Areas

Water for poor people

Infrastructure

Health needs

Schooling

## ENVIRONMENTAL POLICY

Sustainability is a core tenet at APC Drilling. We do our best to preserve environment and its stability by applying eco- friendly work procedures.

Induction programs are conducted on a regular basis to train employees, drilling contractors, and others on site such that wastes are disposed appropriately. We recycle materials as far as possible leaving minimal foot prints on the environment.

Our crew members conduct a thorough research on the worksite taking into account the ecological factors along with health and safety of employees so as to avoid environmental damage.

The entire team at APC including contractors, field workers and clients are obliged to environmental norms and policies. Understanding the criticality involved, we satisfy all local and national level environmental regulations and standards. We also take part in a number of community related activities to empower socially challenged groups.

## HEALTH AND SAFETY POLICY

APC Drilling, is keen when it comes to health, safety and welfare of course of a contract. Anybody found under the influence or possession of alcohol is declared unfit and removed instantly from the workspace. Breach of alcohol and drug policy will result in dismissal and legal implications like police notification and case filing.

Since alcohol and drug consumption threatens safety of others and workers on site employees are advised to report misbehavior of coworkers immediately to their supervisors.

Certain types of prescribed medications have an influence on behavior and performance. In such cases the employee should take necessary approvals from a qualified doctor and submit the requisite papers as demanded by the company.

## REHABILITATION POLICY

APC's management is firm when it comes to health and safety policies observance. Our crew is open to apply novel technologies to re-affirm strategies related to safekeeping and hazard prevention.

Besides when an employee or a contractor is injured, the individual is covered under workplace rehabilitation policy where he is given the necessary support and aids to resume work as soon as possible in a safe manner.

Employees and contractors are the mainstay at APC. And hence our team intervene the proceedings of the affected personnel facilitated by medical practitioners and rehabilitation specialists. As part of rehabilitation policy the individual is given suitable workloads during the healing phase. We meet individual health needs with due respect aiding faster recovery.
